## Software Requirements Specifications

### Introduction

#### Purpose

The purpose of this document is to describe the requirement specification for the web site "Paddy's Pub".

The intended audience for this document is the prospective developers of this site. The goal being that you can give this document to someone and they can make the site without having to ask any questions.

The web site to be created is an informational site for a fictional bar, Paddy's Pub.

#### Definitions, acronyms, and abbreviations

HTML – Hypertext markup language – used to define your content.

PHP – Personal Home Page – language that helps to customize html.

CSS – Cascading Style Sheets – used to define the look of a web site.

W3 Validation – refers to both Html and CSS validation tool provided by the W3c.org. the html validator is located at:

<http://validator.w3.org/>

with the CSS validator located at:

<http://jigsaw.w3.org/css-validator/>

### Overall Description

This site will have important information about the bar, such as hours of operation, a food and drink menu, location of the bar, upcoming events, and contact information. The site will demonstrate good practice of web usability, and will follow convention at every opportunity.

Paddy's Pub	Version <1.0>
Software Requirements Specifications	Date : 5/2/14

## Assignment requirements

1. *Location* – all files will be located in the public folder of your uvm account. The assignment web page and the submit process will detail the exact location. Failure to have your site located in the correct folder by the due dates will result in a zero on the assignment. Be sure to pay attention to the lowercase letters.
2. *Html Validation* – All pages will pass W3C Html validation for html 5.
3. *CSS Validation* – All pages will pass W3C CSS 3.0 validation.
4. *Meta Information* – All pages will contain a proper title tag, Meta tags (author, character set and description).
5. *CSS* – all pages will have a linked style sheet. Start off with my sample from the lectures.
6. *Navigation* – All pages will contain navigation to all other pages on the site using an ordered list. Be sure to enclose the navigation in the correct element.
7. *Content* – Each page will have a minimum of 150 words not counting titles, lists or links. Be sure to use the correct elements to hold your content.
8. *Browser compatibility* - This site will be checked on Firefox, Safari, Chrome and Internet Explorer.
9. *Responsive* - This site will be checked on: <http://quirktools.com/screenfly/>

Paddy's Pub	Version <1.0>
Software Requirements Specifications	Date : 5/2/14

## Specific requirements

1. *Toolbar Icon:* Include a toolbar icon for the website.
2. *Usability:* Incorporate the web usability concepts learned in class.
3. *Theme:* Use some kind of irish theme on the site
4. *Contact:* Have some way for users to contact the bar and leave comments or ask questions.
